

PROFIL 2014/15

BELIKA breidhof

Fingerprint by BELIKA (FiP) offers our clients three different clothing solutions: NOOS, NOOS+ and UNIFORM/identity collection.

Our 'Never-Out-Of-Stock' selection has an offering of 52 products, from our brands Belika and Breidhof, all applicable for further development to NOOS+, where a variety of special features can be added to our knitwear. BELIKA's identity/uniform collection is mainly developed for contract- and tender/procurement customers.

Most of our knitwear is produced at our own modern factory in Poland. We also have a knitting facility in Denmark, which makes us very flexible regarding development and testing of new styles. All our knitwear is produced with tested yarns in highest quality.

NOOS

Belika offers a wide NOOS program delivered directly from our warehouse in Ikast, Denmark.

NOOS+

In reference to our wide NOOS stock program, Belika guides and helps with developing standard products further. This involves special features such as labels, print, pockets, logos, trim, ribbons and other.

IDENTITY COLLECTION

With 80 years of knowhow, Belika has become market leader in the segment of knitwear and uniform. The list of references is long and proves our quality and control: the Danish Police, Falck, DSB, Post Denmark, Told/Skat, and many others.

A man with grey hair, wearing a dark blue crewneck sweater over a white collared shirt, stands in front of a chalkboard filled with handwritten text. He is looking off to the side and holding a pair of glasses in his hands. The lighting is warm and focused on him, with the background slightly blurred.

A photograph of four folded Breidhof sweaters stacked in an open, vintage-style suitcase. The sweaters are in three colors: dark grey, black, and a vibrant red. Each sweater has a visible label at the neckline that reads "breidhof Germany". The top sweater is dark grey, the second is black, the third is red, and the bottom one is dark grey. The suitcase is made of brown leather with a textured interior lining. The background is a plain, light-colored surface.
