A unique piece of craftsmanship

The transformation of glass from a syrupy, hot mass to sparkling crystal is a miracle of creation that takes place every day in the glassworks of Småland. The glass melt makes a long and arduous journey on its path to completion. By the time the finished piece leaves the glassworks, no less than 15 different people have been involved in the process. Each crystal creation is a unique work of craftsmanship. A piece of Swedish cultural history.

A thoughtful gift with a soul

Gifts from Orrefors and Kosta Boda have beauty and glamour that we rarely treat ourselves to. They are born in the heat and magical light of the hot shop at the glassworks. Created by well-known designers and skilful glassblowers. They tell a story about art and culture that give a touch of embellishment to everyday life. Throughout life.

Here, we have gifts for all memorable occasions in your private and working life. And inspiration to create something completely unique.

We do everything to make your wishes come true!

COLLECTION

Trendy with tradition

Mouth-blown champagne glasses for the bridal couple, hand-cut crystal for the company's anniversary and the ultimate wine glass series for wine connoisseurs are just some of all the surprises that you can select from Orrefors. Here you will meet designers who love to experiment, have individual forms of expression and work with skilled glassblowers to surprise you with innovative design and genuine craftsmanship in a timeless Scandinavian spirit.

A celebration of love

Efva Attling has designed jewellery under the Efva Attling Stockholm brand since 1996. AMOR VINCIT OMNIA is her first collection for Orrefors. With the innate sense of style in her designs, she has successfully combined modern silversmith techniques with Swedish glass traditions that stretch back many years. The collection exudes luxury, togetherness and love. This is a celebration of what is pure, clear and timeless. Quite simply, a celebration of love!

DIFFERENCE Makes all the difference

DIFFERENCE, a unique suite of wine glasses explicitly designed to enhance flavour and bouquet, brings a new dimension to the enjoyment of fine wine. COLLECTION

Playful with passion

A cheerful glass vase on the day of an anniversary, a bowl of chocolates as a Christmas present or an imaginative glass sculpture for a colleague on their last day at work. These are just a few examples of gifts from Kosta Boda. The designers at Kosta Boda are vibrant, passionate individuals who style their glass creations with great personality. Our roots are in Sweden's oldest glassworks, but you can also see the future in the artistically modern designs.

Award-winning artist with a passion for glass

Bertil Vallien is one of our most famous artists and designers internationally, represented in museums and collections worldwide. He has received many distinctions throughout his long and rich career, and since 1963 he has been a part of Kosta Boda, where his Satellite and Château series have made a lasting mark.

“I like to work with themes. Glass offers opportunities that no other material can. It’s like scooping lava out of a volcano – a glowing mass turning rapidly to ice. Capturing the expression and the light and coaxing the secrets out of the glass – those are the challenges that make my job so rewarding.”
