

GREG NORMAN

ESSENTIALS
PERFORMANCE BY DESIGN™ 2013

A top three-brand for on-course shirts, Greg Norman Collection is built upon a unique combination of performance, luxury and style. Established in 1992, Greg Norman Collection is inspired by one of the world's leading golf professionals, the man they call "The Shark." Reflecting his adventurous spirit and confident, independent style, the Collection captures Greg Norman's powerful elegance, enthusiasm and passion for an individual design sense.

The 2013 Essentials Collection continues its legacy of offering top-tier products that are sure to meet the needs of the corporate market. Play Dry® and ML75 fabrics offer technology to improve performance for active or casual wear, while fashion styles feature new ideas for executing traditional stripes in unique ways. By using new stripe placements and asymmetrical designs, Greg Norman Collection succeeds in creating visual interest and a modern look that appeals to a wide range of customers.

TECHNOLOGY + INNOVATION

It is our mission to be the global leader in golf-inspired sportswear that combines performance, luxury and style. The following are just some of the advancements we've made in technology to help improve your performance.

PLAY DRY®

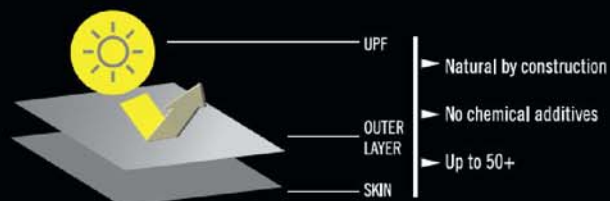

Play Dry® is the leading moisture management system. The technology wicks away moisture from the skin, transports it to the garment's outer layer, eventually evaporating into air. You stay cool, dry and comfortable. The technology behind Play Dry® isn't simple, but the benefits certainly are. Play Better, Play Dry®.

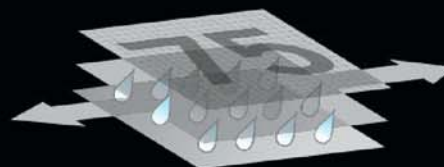

UPF

Offered in a variety of styles, UPF provides a performance element of protection against the sun.

ML75

The proprietary ML75 polo combines high-performance properties with luxury appeal. 30% lighter than the average golf shirt, its natural UPF and Play Dry® moisture wicking ensures comfort and coolness on the hottest of summer days.

FABRIC FEATURES

POLYESTER PERFORMANCE PLAY DRY®

Fine micro-denier polyester fibers are used to create this high-tech group of lightweight fashion knits that offer excellent wicking functionality along with UPF protection and easy-care properties.

ML SERIES

ML75 is the ultimate luxury-infused, ultra-lightweight performance fabric, featuring a silky hand and drape combined with moisture wicking technology, UPF protection and easy-care, wrinkle-resistant characteristics.

CATIONIC

Cationic fiber is a unique polyester micro-fiber with special dye absorption characteristics that enable us to achieve two-color pattern designs within a fabric.

BODY MAPPED

The process of body mapping involves engineered knitting by specific garment size to achieve a combination of stitches and textures for creative fabric design placement. Our Jacquard Body Mapped Polo features a fashion-forward tonal design on the front, sides and back of the garment.

MICROFIBER WOVENS

Many of our jacket fabrics are woven with microfiber polyester yarns to offer high-quality outerwear with a smooth, soft hand and enhanced performance. Combine this with special finishes that add wind resistance and water repellency as well as unique detailing for added functionality and the result is the very best in golf-inspired outerwear.

DETAILING

Throughout the Essentials Collection you'll find signature Greg Norman branding, including the shark logos strategically placed on many garments. In addition, specially etched buttons and logoed zipper pulls and rubber patches offer added value with recognition of the highly perceived Greg Norman brand.

SIZE CHARTS

We recommend that you refer to the size scale below to best determine the sizes you need to order. These are body measurements that should be used to establish which Greg Norman size will fit you best. We can also provide garment size specifications by request.
