Serving in a saucepan?

- Sensually curve shaped body...

- Ideal for any oven dishes.

A new EGO soup tureen is the powerful finale of the EGO soup universe.

Inside as outside this design is voluminous; with a shape of its own the design is suitable for all kinds of soups but also a mixed salad will look great in this 'take it to the limit' expression.

With the beautiful drop shaped EGO soup spoon standing shamelessly out of the soup this is a provoking new way of eating....
