

Brunch plate

Material:

Plate styled in bone china porcelain with a single circle. Brunch plate styled in walnut wood with hole for an egg
Diameter 160 mm

Note:

The EGO brunch plate is a 'dry' and elegant solution for a healthy and mixed situation...

- A single concentric circle divides the plate into sections on which the meal can be arranged and enjoyed without mixing.
- With the wooden walnut plate placed into the inner circle, a dedicated brunch plate is born!
- Use it everyday! - Indoors or outdoors in the sunrise
- Flat plateau, for easy butter bread
- Hole for a soft-boiled egg.
- Bread, jam, ham and egg, everything in the right place. Clean with strong and visual performance.
- A good start for a good day!
