Kinetic sculpture

Physics for those who like games:
the Newton's cradle goes back to an invention of Edme Mariotte, who discovered that the ball at the right transfers its force to the next one to the left, which in turn transfers the force to its neighbour, and so on. The ball on the extreme left has nowhere to transfer the force, and is therefore pushed away, so that only the two outer balls swing.

Internet weather station

Internet weather
This weather station finds out about the weather via USB and the internet. All one needs to do is install the software included. Then simply select the preferred country of your choice to receive its weather report for the coming four days. A news ticker displays the day's top news at the same time. Includes a calendar, alarm, indoor thermometer and weekday display and can be wall-mounted or placed on surfaces.

FINDPILOT®

LOST?

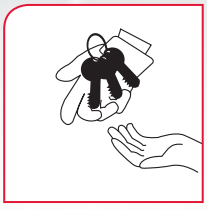

FINDPILOT®

THE QUICKEST RECOVERY SYSTEM

NOT ONLY FOR KEYS...

WWW.FINDPILOT.EU

...BUT ALSO FOR:

FINDPILOT® THE QUICKEST RECOVERY SYSTEM

TECHNICAL INNOVATION

The system behind FindPilot is in its form absolutely new and innovative! It needs no human help, works completely automatically and is therefore available to you 365 days a year day and night.

The FindPilot system allows the direct exchange by phone between finder and property owner. All data is covered under strict observation of privacy protection.

The FindPilot system will constantly be developed and is based on the state of the art technology.

FindPilot is easy to operate for property owner and finder, no matter if young or old:

- simple FindPilot - webinterface for registration and administration of IDs
- service telephone number
- innovative FindPilot voice mailbox, where the finder can leave a message and the owner can play it back online
- in case of a call, FindPilot security advice gives the owner advance warning not to pass on personal data
- available worldwide
- multilingual operation
- informs the property owner by phone, SMS and E-mail

HOW DOES THE FINDPILOT SYSTEM WORK?

1. Your customer receives the FindPilot fixture and attaches it to the property.

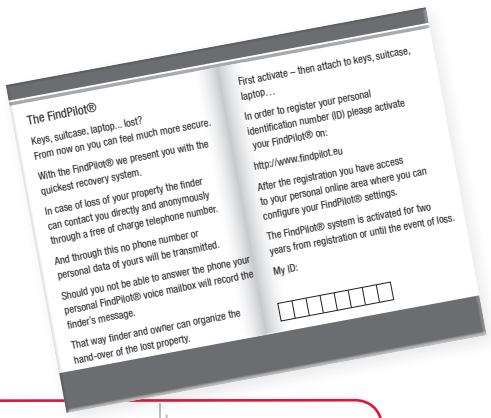

2. Your customer registers online his personal FindPilot-ID for minimum 2 years and thereby gets the opportunity to retrieve his property in case of loss.

3. In the event of loss the finder can contact the owner anonymously and directly by telephone.

4. Within a few minutes FindPilot can bring together finder and owner to organize the handover of the lost property.

THE ADVANTAGES

- the quickest recovery system
- 100% availability
- high security standards
- protection against follow-up costs
- easy handling
- long-lasting benefit

The FindPilot®

Keys, suitcase, laptop... lost?
From now on you can feel much more secure.
With the FindPilot® we present you with the quickest recovery system.
In case of loss of your property the finder can contact you directly and anonymously through a free of charge telephone number.
And through this no phone number or personal data of yours will be transmitted.
Should you not be able to answer the phone your personal FindPilot® voice mailbox will record the finder's message.
That way finder and owner can organize the hand-over of the lost property.

First activate – then attach to keys, suitcase, laptop…
In order to register your personal identification number (ID) please activate your FindPilot® on:
http://www.findpilot.eu
After the registration you have access to your personal online area where you can configure your FindPilot® settings.
The FindPilot® system is activated for two years from registration or until the event of loss.

Torch with emergency tools

Emergency rescue equipment:
The energy-saving LEDs in the torch can be switched individually (1 or 5 LEDs) depending on the degree of brightness required. The red signal light on the side is equipped with four LEDs and flashes to draw attention. Belt cutter and safety hammer will free you in an emergency. The dynamo operation ensures power even without batteries, and four magnets ensure the equipment is always ready to go when needed.

LED LED CE

Torch with emergency tools

The energy-saving LEDs in the torch can be switched individually (1 or 5 LEDs) depending on the degree of brightness required. The red signal light on the side is equipped with four LEDs and flashes to draw attention. Belt cutter and safety hammer will free you in an emergency. The dynamo operation ensures power even without batteries and with four magnets the torch is always well fixed and within reach.

REFLECTS-KAKURO

REFLECTS-KAKURO is an arithmetic crossword puzzle. The numbers given are totals. The numbers in the top right-hand corner of the cells are the totals of the numbers in the row to the right of this cell (horizontal). The numbers in the bottom left-hand corner are the totals of the numbers in the column below the cell (vertical). Only the numbers 1 to 9 may be entered in the free cells. The sum of each row or column must equal the respective total given. However, each number may only occur once in each row / column.

REFLECTS-SUDOKU

The numbers 1-9 have to be written in the grid in such a way that each number occurs only once in every row, every column and every 3 x 3 square

CONCEPTS

LANYARDS & MORE

LANYARDS & MORE

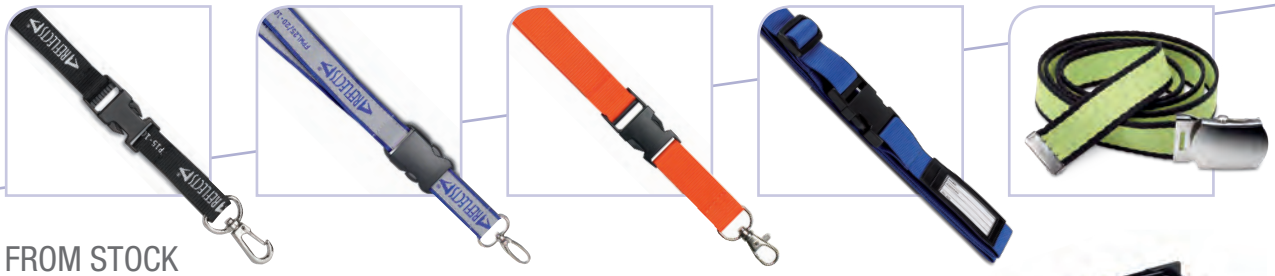

INDIVIDUAL

Design your individual lanyard in only 3 easy steps, starting **from 150 pieces.** You can choose from 8 materials, 50 standard accessories and all this in your own pantone colour.

FAST TRACK

Choose from 8 popular standard band colours, 3 widths, 6 different accessories in up to four colour print of your favourites. Your desired lanyard in flat woven polyester is delivered in **approx. 3 weeks, starting from 150 to 3000 pieces.**

FROM STOCK

Your requirement is last minute, uncomplicated and simple? Your neutral lanyard is available directly off the shelf in 7 standard colours with one of two standard accessories.

LUGGAGE STRAPS

Luggage straps can be delivered starting from 500 pieces, have a width of either 30 or 50 mm and a length of 1600 mm and are available in three materials.

BELTS

Belts can be made from polyester from 500 pieces, in 2 widths of either 30 or 40 mm and 130 cm long (+/- 10 cm). Approximate pantone colours can be chosen and combined with one another (striped belts). Complete that fashionable look with one of four attractive buckles. Whether personalised by print or embroidery, your logo will look like a fashion label.

INDIVIDUAL PRODUCTION LANYARDS

Here you can see some bespoke products and specials which may surprise you. Please contact us as there are almost no limits to what can be made.
