Zippo's classic brushed chrome finish takes on a new look! Directional brushing results in creative design patterns with the enduring appeal of traditional brushed chrome, but with a fresh new perspective. Sides of the directional brushed lighters are tumbled rather than high polish.

Several distinctive features identify the 1941 Replica:

- Flat planes with sharp, less rounded edges than the current model where the front and back surfaces meet the sides.
- Four-barrel hinge joins the lid and bottom; the current Zippos lighter has a five-barrel hinge.
- Sides of the inside unit are flat, with squared edges where they meet the front and back surfaces.
- Inside unit has fewer holes in the chimney than current models; also fitted with a hollow rivet that holds the striking wheel in place.
- Silver foil gift box is standard packaging for all 1941 Replica models.

1935 Replica

The 1935 lighter, one-eighth inch shorter than subsequent models and manufactured for less than three years, has been replicated in stunning detail featuring the original look and elements that made this lighter one of the most collectible in Zippos history.

- Three-barrel outside hinge joins the lid and bottom; the current Zippos lighter has a five-barrel hinge.
- Open hollow rivet secures flint wheel to inside unit.
- Distinctive bright brushed chrome finish with or without slashes on the opposite corners of the face and back surfaces.
- Flat bottom case with unique bottom stamp.
- Custom cardboard gift box is standard packaging for all 1935 Replica lighters.

Bright-cut engraving produces dazzling facets, resulting in the dimensional look of a beautiful emblem directly on the surface of these Zippo Armor lighters. Enhanced with a personalization panel (#28185) and a gold-flashed inside unit (#28186).

These lighters were created by Grant Duke, a fourth generation member of the Zippo family.

It's the ultimate indulgence. With understated elegance, this 18kt. gold Zippo windproof lighter feels solid and substantial, looks absolutely beautiful.

The Zippo pipe lighter is made to the same high quality standards as a Zippo windproof lighter, but designed for the special needs of pipe smokers. The ingenious design encases the flame in metal, allowing it to be drawn directly into the pipe without bending over the side. The result: perfectly lit tobacco, with no damage to the pipe. The insert of a Zippo pipe lighter is exactly the same size as the standard windproof lighter insert, allowing pipe smokers who have a treasured Zippo windproof lighter the option of replacing the insert to continue carrying the favorite case.

EMERGENCY FIRE STARTER KIT®

Our Zippo® Emergency Fire Starter Kit® doesn't even rely on a flame to start a fire. It uses a simple flint wheel to spark water-resistant, waxed tinder sticks that store in a waterproof case. In emergencies, where matches or lighters are unavailable, this kit can start a fire almost instantly and may save lives. Some of the outdoors' top people think so, too. It was awarded the Seal of Approval by the North American Hunting Club.
