## Share presents, create joy - and flag the colours!

Christmas is the time for sharing, the time to show appreciation and the time to reflect on the year that is almost over. In this catalogue we display presents that will not only fulfil the above, but also market YOUR company, rather than the brand of the chocolate manufacturer.

We also show presents that enable your customers to SHARE internally - if they want to - rather than giving presents that can't be shared.

The European trend in the past six years has been very clear. Gifts with logo that can be shared increases year by year. Furthermore, chocolate can be enjoyed by anyone, regardless of religion, age or gender.

We can deliver gifts with complete branding in small quantities, as low as ten pieces, and should you require 15.000- we will handle that equally well.

Therefore: send us an email with a request, and we will supply the artwork, in no time, as well as samples when needed.

All prices in this catalogue is exclusive of any local taxes. We maintain the right to change prices, spec and product without prior warning.

### Our team is ready to serve you!

# Christmas news

We are proud to present six new presents this year. The newcomers are all meant to create joy, and signal quality and good taste, reflecting your image as well.

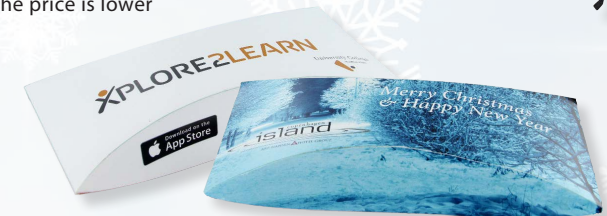

The Wooden box presents both a quality image signalling "old school". We deliver it with Belgian pralines or Kronborg filled chocolates.

The Butterfly Box has a large surface, no less than six printable sides, and the price is lower than you think!

Victorian Jar looks like glass, so if you are afraid of broken glass, this is the thing for you. This means you can ship it, and the price is yet a fraction of a glass jar - looking almost the same.

The Smart Bag has been given a 2014 look, and we added more sizes to accommodate the large demand. Here is a fantastic design, big value, and small price - we will not have it any different.

Gift Tube, this year with metal lid and full surface four color print. We added more sizes as well. A fantastic gift for your clients to share. Our surveys show that a three kilo tube last around three days in the office of the receiver, branding YOU around the clock.

## Kronborg chocolate

Kronborg Chocolate comes from a small Danish chocolate manufacturer, dating back to 1898. The recipes are more than one hundred years old, and all chocolate is made with respect of the old traditions. Nothing is machine made, all is made by hand, beginning with rolling the marzipan, shaping the pieces, cutting them - piece by piece - and ending with hand decor of each piece. Nothing is left to chance. Only the very best raw materials are put to use in making Kronborg chocolate. Needless to say that there is nothing artificial in the Chocolate, Nougat or the Marzipan. Kronborg chocolate is packed in sealed 100gr trays, each with 9 assorted chocolates.
